

Annex 01 System Architecture of ELIAS

After completion of the application procedures (Portal B), the following information is published in the database (Portal D):

- Information regarding program accreditation; entries are published in each case after an accreditation decision has been made;
- Information about system accreditation; entries regarding the system accreditation of higher education institutions are also published automatically after an accreditation decision has been made.

In addition:

- Information regarding entries for internally accredited study programs is submitted by the system-accredited HEIs (portal C) and published in the database (portal D);
- Information about accredited study programs under the “old” law (prior to 2018) is submitted by the agencies (portal E) and published in the database (portal D).
