MRVO	State Ordinance Regulating Academic Program Accreditation of the State of Mecklenburg-Western Pomerania (State Ordinance on Academic Program Accreditation—StudakkLVO M-V) Downloaded on December 15, 2025, from: https://www.landesrecht-mv.de/bsmv/document/jlr-HSchulQSAkkrRglVMVrahmen	Assessment of the Deviation in the State Ordinance from the MRVO
Part 1 General Provisions	**Part 1 General Provisions**	
§ 1 Scope of Application	**Section 1 Scope**	
(1) This ordinance, based on Article 4 of the State Treaty on the Organization of a Joint Accreditation System for Quality Assurance in Studies and Teaching at German Universities (State Treaty on Study Accreditation; GVBl.), sets forth the details regarding the formal criteria under Article 2, paragraph 2; the subject-specific and content-related criteria under Article 2, paragraph 3; and the procedure under Article 3 of the State Treaty on Study Program Accreditation.	(1) This regulation, based on Article 4 of the State Treaty on the Organization of a Joint Accreditation System for Quality Assurance in Academic Studies and Teaching at German Universities (State Treaty on Study Program Accreditation; GVBl. State Treaty on Study Program Accreditation of June 20, 2017 (GVOBl. M-V p. 370)), sets forth the details regarding the formal criteria under Article 2(2), the subject-specific and content-related criteria under Article (2) paragraph 3, and regarding the procedure under Article 3 of the State Treaty on Study Program Accreditation.	Editorial changes / no deviations.

(2) Unless otherwise specified in this ordinance, the following provisions on program accreditation also apply to degree programs at state-run and state-recognized vocational academies that lead to a Bachelor's degree. A Bachelor's degree accredited on the basis of this (model) ordinance is equivalent, under higher education law, to a Bachelor's degree from a university.	(2) Unless otherwise specified in this ordinance, the following provisions on program accreditation also apply to degree programs at state-run and state-recognized vocational academies that lead to the state-recognized degree title of "Bachelor." A Bachelor's degree accredited on the basis of this ~~(model)~~ ordinance is equivalent, under higher education law, to a Bachelor's degree from a university.	Editorial changes / no deviations.
§ 2 Forms of Accreditation	**Section 2 Forms of Accreditation**	
Forms of accreditation include the procedures set forth in Article 3(1)(1) of the State Treaty on Study Program Accreditation (system accreditation), in Article 3(1)(2) (program accreditation), or alternative accreditation procedures under Article 3(1)(3).	Forms of accreditation include the procedures set forth in Article 3(1)(1) of the State Treaty on Higher Education Accreditation (system accreditation), in Article 3(1)(2) (program accreditation), or alternative accreditation procedures pursuant to Article 3(1)(3) of the State Treaty on Higher Education Accreditation.	Editorial changes / no deviations.
Part 2: Formal Criteria for Degree Programs	**Part 2: Formal Criteria for Degree Programs**	
§ 3 Program Structure and Duration, Recognition, and Credit Transfer	**Section 3 Program Structure and Duration of Study, Recognition, and Credit Transfer**	

(1) In the system of tiered degree programs, the bachelor's degree is the first standard degree conferring professional qualifications in a higher education program; the master's degree constitutes a further higher education degree conferring professional qualifications. Undergraduate degree programs that lead directly to a master's degree are excluded, with the exception of the degree programs specified in paragraph 3.	(1) In the system of tiered degree programs, the bachelor's degree is the first standard degree conferring professional qualifications in a higher education program; the master's degree constitutes a further higher education degree conferring professional qualifications. Undergraduate degree programs that lead directly to a master's degree are excluded, with the exception of the programs specified in paragraph 3.	Editorial changes / no deviations.
(2) The standard periods of study for full-time study are six, seven, or eight semesters for bachelor's degree programs and four, three, or two semesters for master's degree programs. For bachelor's degree programs, the standard period of study for full-time study is at least three years. For consecutive degree programs, the total standard period of study for full-time study is five years (ten semesters). If state law so provides, shorter or longer standard periods of study are exceptionally possible, subject to appropriate organizational arrangements, in order to enable students to pursue an individualized learning path, particularly through part-time, distance, part-time while working, or dual study programs, as well as semesters of professional practice. Notwithstanding the third sentence, in the core artistic disciplines at colleges of art and music, consecutive bachelor's and master's degree programs may also be established with a standard period of study of six years, subject to further provisions of state law.	(2) The standard periods of study for full-time study are six, seven, or eight semesters for bachelor's degree programs and four, three, or two semesters for master's degree programs. For bachelor's degree programs, the standard period of study for full-time study is at least three years. For consecutive degree programs, the total standard period of study for full-time study is five years (ten semesters). ~~If state law so provides, shorter or~~ longer standard periods of study are possible in exceptional cases, provided the program is structured accordingly, in order to enable students to pursue an individualized learning path, particularly through part-time, distance, work-integrated, or dual study programs, as well as semesters of professional practice. Notwithstanding sentence 3, consecutive bachelor's and master's degree programs in core artistic disciplines at art and music colleges may also be established with a standard duration of study of six years, ~~subject to further provisions of state law~~.	Filling in the scope for flexibility provided by the MRVO in state law.

(3) Theological degree programs that qualify students for the office of pastor, the priesthood, or the profession of pastoral assistant (“full theological program”) need not be structured in stages and may have a standard period of study of ten semesters.	(3) Theological degree programs that qualify students for the office of pastor, the priesthood, or the profession of pastoral assistant (“full theological program”) need not be structured in stages and may have a standard period of study of ten semesters.	Editorial changes / no deviations.
(4) The institution implements the national and state legal regulations regarding the recognition of competencies, qualifications, and academic achievements earned at a higher education institution, as well as the transfer of competencies and qualifications acquired outside of higher education institutions.	(4) The institution implements the national and state legal regulations regarding the recognition of competencies, qualifications, and academic achievements earned at a higher education institution, as well as the transfer of competencies and qualifications acquired outside of higher education institutions.	Editorial changes / no deviations.
Section 4: Program Profiles	**Section 4 Degree Program Profiles**	
(1) Master’s degree programs may be “application-oriented” or “research-oriented” profiles. Master’s degree programs at colleges of art and music may have a special artistic profile. Master’s degree programs that provide the educational prerequisites for a teaching position have a special teaching-related profile. If the institution specifies a profile, this must be stated in the accreditation.	(1) Master’s degree programs can be classified according to “practice-oriented” or “research-oriented” profile. Master’s programs at art and music colleges may have a specific artistic profile. Master’s programs that provide the educational requirements for a teaching position have a specific teaching-related profile. If the institution specifies a profile, this must be noted in the accreditation.	Editorial changes / no deviations.

(2) When establishing a master's program, it must be specified whether it is a consecutive or a continuing education program. Continuing education master's programs correspond to consecutive master's programs in terms of the standard period of study and the thesis, and lead to the same level of qualification and the same entitlements.	(2) When establishing a master's program, it must be specified whether it is a consecutive or a continuing education program. Continuing education master's programs correspond to consecutive master's programs in terms of the standard period of study and the thesis, and lead to the same level of qualification and the same entitlements.	Editorial changes / no deviations.
(3) Bachelor's and Master's degree programs require a thesis that demonstrates the ability to independently address a problem in the respective field within a specified timeframe using scientific or artistic methods.	(3) Bachelor's and Master's degree programs require a thesis that demonstrates the ability to independently address a problem in the respective field within a specified time frame using scientific or artistic methods.	Editorial changes / no deviations.
§ 5 Admission Requirements and Transitions Between Degree Programs	**Section 5 Admission Requirements and Transitions Between Degree Programs**	

(1) The admission requirement for a master's degree program is a first professional degree. For continuing education and artistic master's degree programs, the professional degree may be replaced by an entrance examination, provided that state law so provides. Professional Master's degree programs require at least one year of qualified professional experience; exceptions may be granted to individual students in justified cases.	(1) The admission requirement for a master's program is a first professional degree. ~~For continuing education and artistic master's programs, the professional degree may be replaced by an entrance examination, provided that state law so provides.~~ Continuing education Master's programs generally require a first professional degree as well as qualified professional experience of at least one year~~; exceptions may be made for individual students in justified cases~~. The professional degree may be replaced by an entrance examination; the relevant professional experience should total at least five years. Cases where the required professional experience falls short of this duration should be limited to justified individual cases with an equivalent level of professional qualification.	Implementation of the flexibility provided by the MRVO in state law.

(2) As an admission requirement for artistic master's degree programs, proof of the specific artistic aptitude required for such programs must be provided. For admission to continuing education artistic master's degree programs, professional practical activities completed during the course of study may also be taken into account, provided that state law permits this. The requirement for professional practical experience does not apply at art colleges for programs designed to deepen independent artistic skills, provided that state law provisions so stipulate.	(2) To be admitted to artistic master's degree programs, applicants must demonstrate the specific artistic aptitude required for such programs. ~~For admission to continuing education artistic master's degree programs, professional practical activities completed during the course of study may also be taken into account, provided that state law permits this. The requirement for professional practical experience does not apply at art colleges for programs designed to deepen skills in the fine arts, provided that state law so provides.~~	Utilization of the discretion granted by the MRVO in state law.
(3) Additional requirements for admission to master's degree programs may be established in accordance with state law.	(3) Additional requirements for admission to master's degree programs may be established in accordance with state law.	Editorial changes / no deviations.
Section 6 Degrees and Degree Titles	**Section ~~-~~ 6 Degrees and Degree Titles**	
(1) Upon successful completion of a bachelor's or master's degree program, only one degree—either the bachelor's or master's degree—shall be conferred, unless it is a multiple-degree program. In this context, degrees are not differentiated based on the standard duration of study.	(1) Upon successful completion of a bachelor's or master's degree program, only one degree—either the bachelor's or master's degree—is awarded, ~~unless it is~~ a multiple-degree program~~, provided that~~ the State Higher Education Act does not provide for other degree designations. Exceptions apply in the case of ~~multiple-degree programs. In such cases,~~ no differentiation of degrees based on the duration of the standard period of study is made.	The wording of the State Ordinance allows for the conferral of "Diplom" degrees (in conjunction with § 41(1) of the State Higher Education Act).

Section 7 Modularization	**§ 7 Modularization**	
(1) Degree programs shall be structured into study units (modules) that are thematically and temporally defined by the combination of intended learning outcomes and course content. The intended learning outcomes and course content of a module must be structured so that they can generally be taught within a maximum of two consecutive semesters; in exceptionally justified cases, a module may extend beyond two semesters. For the core artistic subject in the bachelor's program, at least two modules are required, which may account for approximately two-thirds of the total study time. § 8 Credit Point System	**§ 8 Credit Point System**	
(1) Each module shall be assigned a specific number of ECTS credits based on the workload required of students. As a rule, 30 credits shall be used as the basis per semester. One credit corresponds to a total student workload of 25 to a maximum of 30 hours of in-class and independent study. ECTS credits are awarded for a module if the student demonstrates the achievements specified in the examination regulations. The awarding of ECTS credits does not necessarily require an examination, but rather the successful completion of the respective module. Part 3: Academic and Content-Related Criteria for Degree Programs and Quality Management Systems	**Part 3: Academic and Content-Related Criteria for Degree Programs and Quality Management Systems**	
§ 11 Qualification Objectives and Degree Level	**§ 11 Qualification Objectives and Degree Level**	

(1) The qualification objectives and the intended learning outcomes are clearly formulated, publicly accessible, and demonstrably take into account the objectives of higher education specified in Article 2, paragraph 3, item 1 of the State Treaty on Study Program Accreditation. The dimension of personal development also encompasses the future civic, political, and cultural roles of graduates. Upon graduation, students should be able to play a decisive role in shaping social processes in a critical and reflective manner, with a sense of responsibility and democratic civic spirit. Upon graduation, students should be able to play a decisive role in shaping social processes in a critical and reflective manner, with a sense of responsibility and democratic civic spirit.	Editorial changes / no deviations.
(2) The academic and scientific/artistic requirements encompass the aspects of knowledge and understanding (expansion, deepening, and comprehension of knowledge), the use, application, and creation of knowledge/art (utilization and transfer, scientific innovation), communication and cooperation, as well as scientific/artistic self-concept/professionalism, and are consistent with the level of the degree awarded.	(2) The academic and scientific/artistic requirements encompass the aspects of knowledge and understanding (broadening, deepening, and comprehending knowledge), the use, application, and creation of knowledge/art (utilization and transfer, scientific innovation), communication and cooperation, as well as scientific/artistic self-concept and professionalism, and are consistent with the level of the degree awarded.	Editorial changes / no deviations.

(3) Bachelor's degree programs are designed to impart scientific foundations, methodological competence, and profession-specific qualifications, and ensure a broad scientific or artistic qualification. Consecutive Master's degree programs are structured as programs that deepen, broaden, or are interdisciplinary in nature, or focus on different subject areas. Professional Master's degree programs require qualified professional experience of generally no less than one year. The program design of professional master's programs takes professional experience into account and builds upon it to achieve the qualification objectives. In designing the program, the institution outlines the relationship between professional qualifications and the academic offerings, as well as the equivalence of the requirements for consecutive master's programs. Artistic degree programs foster and further develop the ability to create art. § 12 Coherent Program Concept and Adequate Implementation	**Section 12 Coherent Program Concept and Adequate Implementation**	

(1) The curriculum is appropriately structured, taking into account the specified entry requirements and with a view to achieving the program objectives. The program objectives, the program title, the degree and its designation, and the module concept are coherently aligned with one another. The program concept encompasses diverse forms of teaching, learning, and assessment adapted to the respective academic culture and program format, as well as practical components where applicable. It creates suitable conditions for promoting student mobility, enabling students to spend time at other institutions of higher education without losing academic progress. It actively involves students in the design of teaching and learning processes (student-centered teaching and learning) and provides opportunities for students to shape their own course of study. The degree program, course of study, examination requirements, module descriptions, and admission requirements—including provisions for compensating for disadvantages faced by students with disabilities or chronic illnesses—are documented and published. Section 17: Concept of the Quality Management System for System-Accredited Higher Education Institutions (Objectives, Processes, Instruments)	**17 Concept of the Quality Management System at System-Accredited Institutions of Higher Education (Objectives, Processes, Instruments)**	

(1) The institution of higher education has established central educational objectives for teaching, which are reflected in the institution's mission statement and in the curricula of its degree programs. The quality management system adheres to the values and standards of the mission statement for teaching and aims to continuously improve the quality of education. It ensures the systematic implementation of the requirements specified in Parts 2 and 3. The institution has established and published institution-wide decision-making processes, areas of authority, and responsibilities for the establishment, review, further development, and discontinuation of degree programs, as well as the institution's own procedures for the accreditation of degree programs within the framework of its quality management system. The institution establishes provisions regarding periods of validity and deadlines in accordance with §§ 26 and 27. The university may specify shorter periods of validity and deadlines. If a quality management system provides for the formation of clusters, § 30(1) shall apply mutatis mutandis with regard to cluster sizes.
